### Top Tips to Addressing Unconscious Bias

**Ask questions of yourself.** Consider whether the bias stems from your own assumptions.

If so, consider the following questions:

- Do I have an automatic feeling or judgement about this person?
- Am I being reminded of someone?
- What is this person triggering in my background?

**Ask questions of others.** Help people check themselves in the moment when they may be exhibiting bias. Considering inquiring:

- What makes you say that?
- Isn't that a generalization?
- Can you explain that statement?

**Dig into rationale.** If the bias stems from a lack of information, consider asking the following:

- Can you tell me more about that idea?
- How did you come to that conclusion?
- I'm having a hard time understanding your point of view. Can you walk me through it?
